

# ASSIST Transfer Channel

The Official Newsletter of ASSIST

3<sup>rd</sup> Edition - September 2005

## Printing ASSIST Reports

We often hear that ASSIST reports are not printed in a format that is easy to read and use. We are told that the heading information is missing, the lines are not wrapping properly, or the report elements don't fit nicely on one page. These issues are almost always resolved by the PDF version of the report. This article walks you through the few short steps to printing ASSIST reports that are formatted specifically for use as printed documents.

After making choices in ASSIST about the type of transfer information you want to see, an ASSIST report is displayed. The transfer information is shown in HTML format to make it easy to navigate long reports on the Web and to keep heading information visible while viewing the entire report.

				(CAN MUS 22)	
MUSC 106	Beginning Piano	(1)	MUIVI 341	Beginning Piano	(2)

Adobe Reader must be installed on your computer to display and print PDF files. Adobe Reader is a free plug-in available from the Adobe Web site at: <http://www.adobe.com/products/acrobat/readstep2.html>. It is very simple to download and install, but if you're uncomfortable installing the plug-in, ask the technical support person at your campus for help.
