

**Four Year Articulation in ASSIST
Comparison of 96-97 and 97-98
May, 1998 - Page # 1**

Articulation matrices indicating with which institutions each university has articulation have not yet been requested by the Board. Therefore, it is difficult to determine precisely how close we are to achieving a complete database of articulation. The following document compares the articulation provided by the four-year institutions for 1996-97 and 1997-98. Additional articulation may have been developed and not provided to ASSIST.

Additionally, the deadline for providing data to the ASSIST Coordination Site for 1997-98 is May 29. This report is current through April 20, 1998. Additional articulation may be forthcoming from campuses.
